

SXCS/BP-7

Credit Courses

1. Title of the Best Practice

Credit Courses

2. The Context

SXCS has always strived to keep pace with the emerging trends in higher education. Keeping up with this ethos, SXCS constantly introduce programs that allow students to specialize in credentials in their chosen field along with the graduate programs.

3. Objectives of the Practice

Objectives of this practice are:

- To enable students to build specialised job-oriented skills in their chosen area of study.
- To enable students to choose their future area of work and study as all subjects are market relevant.
- To ensure that each course has a clearly defined course objective and course outcome.

4. The Practice

- Each course, course objective and course outcome are designed in collaboration with professionals so as to ensure that the course is market relevant.
- Regular internal assessments and tests are conducted to evaluate the students on their progress.
- A continuous feedback system is followed to ensure that student opinion is taken into consideration.

- Students have to take up compulsory industrial visits at least once every academic year to ensure that students have exposure to the industry.

5. Advantages

- Credit Courses offered are globally and locally relevant.
- SXCS has successfully collaborated with several distinguished companies that provide value add on courses.
- Internship and Final Placement opportunities in renowned companies and City set up local corporate Intuitions.

6. Challenges

- Designing courses that cater to the interests of a diverse set of students who come from various backgrounds and cultures.

7. Evidences of Success

- Since these credits are compulsory, all students have to complete the course in order to graduate.
- Students have further built their CV and secured jobs too.

8. Resources Required

- Experts in the respective interdisciplinary fields.
