## The Message

**M**ay ended with cool rain. Students were excited to know their summer vacation. The great satisfaction was seen on the face of the students and staff. Their hardwork and joy of summer relaxation cheered the campus.

Gratefulness is an ongoing pour from heart which is possible when a person begins to experience God in one's humility which leads one to touch the feet of God through nature. Knowledge is something divine which gives humility to every student who is open to the spirit. Students must be generous in learning and open to the teachers who gives direction towards the sea of knowledge. An intelligent person can become a wise person when one begins know and accept oneself. Self-acceptance is one of the greatest acts that strengthens a person which is not possible if a person does not have virtue of humility within oneself. Humility gives girth to wisdom though which a person enters into the stillness of oneself where one finds oneself which is beyond the world.

Dear student, love yourself as you are because you are unique and special. You are not outside of yourself but you are present in you very self as you are. discover yourself within you as you will see and begin to grow. All the best.

## Editorial

**T**he month of May, was a time of learning, reflection, and transition for the family of St. Xavier's College, Simdega. The academic activities, assessments, and preparations for future responsibilities were organised so smoothly that the campus remained vibrant with enthusiasm and participation. Our students continued to engage actively in various educational and co-curricular opportunities that enriched their knowledge and strengthened their sense of community. As Albert Einstein wisely remarked, "The only source of knowledge is experience." Every experience gained during this period has contributed to the growth of our students.

Students seemed to be happy forward to explore the new surroundings, classrooms, and opportunities that await them in Dhawaipani campus leaving the devoted years of life journey to the institution, feel of a deep sense of nostalgia with countless memories of dedication, friendship, and achievement.

The summer vacation is a valuable time for self-improvement, reading, skill development, and reflection. In the words of Benjamin Franklin, "An investment in knowledge pays the best interest." May this vacation bring rest, renewal, and inspiration for the journey ahead.
