

## Policy on Ethical Research and Publication of the Code of Ethics

The foremost among them is promoting quality research in search of knowledge and truth. It is equally important that prohibitions against artificially constructing, falsifying, or misrepresenting research data and curbing the practice of plagiarism will ensure quality research that contribute to find lasting solutions.

### Following principles in ethical research:

- **Objectivity:** Consciously upholding the values of being independent and true and avoiding individual subjectivity.
- **Integrity:** Adopting a high level of academic moral character, and intellectual honesty as well as assuming personal responsibility for the actions committed and omitted by the researcher
- **Confidentiality:** The researchers must respect the privacy, autonomy, diversity, values and dignity of research subjects and must be very sensitive while disclosing the information and data of public interest by ensuring the privacy and confidentiality of the source of information.
- **Transparency:** The researchers must be as open as possible with respect to the decisions made and provide justifications for their actions.
- **Honesty:** The researchers must possess unbiased and honest attitude in knowing and stating the truth.
- The college shall publicize the Code of Ethics and Policy on Ethical Research by circulating the same among the research

guides / supervisors, registered research candidates, teaching staff of the college as well as published in the College Website in a prominent manner so as to attract the attention of the interested persons.
