

SXCS/P-30

Recourse Mobilization Policy

SXCS is committed to help its students in realizing their full potential. The concept of autonomous colleges provides freedom in the areas of curricular design, innovative teaching & learning methods, research & extension activities including other academic activities like excursions, field work, internal innovative examinations and valuation, making each autonomous college fully accountable for the quality of education it imparts. All these activities require massive resource mobilization to meet the increased enrolment of students and faculty recruitment every year. In this context, the institution follows a Comprehensive Resource Mobilization Policy for all SXCS Community members.

The Policy Statement

The policy supports the achievement of strategic plans of the institution by due process of analysis and identification of resources required for all programmes, prioritizing the requirements, allocation of the resources considering the available resources, and individual commitments. It also entails effective relationship management with the resource providers, the skills, knowledge and capacity for proper use of resources.

Objective of the Policy

- The primary objective is to ensure that there is a clear, systematic, predictable and well-coordinated approach to mobilization of resources.
- To encourage and enhance the flow of resources coming into the institution for its development.
